DIV. OF OIL, GAS & MINING

Subject: Certification of Authorized Representatives

Dear Mr. Graffis:

The U.S. Gypsum Company utilizes an onsite landfill as part of its wallboard manufacturing facility in Sigurd, Utah. Recently, U.S. Gypsum has been working with the Utah Division of Solid and Hazardous Waste (Division) to obtain a permit for operating the onsite landfill. The permitting requirements include the establishment of a financial assurance mechanism to ensure funds are available for closure and post-closure care of the landfill. Specifically, U.S. Gypsum has established a standby trust through National City Bank as part of the financial assurance mechanism.

Enclosed is the *Certificate of Authorized Representatives*, which was requested by National City Bank. For the purpose of enforcing the *Utah Solid Waste Permitting and Management Rules*, the authorized representative is the person who holds the position of Executive Secretary of the Utah Solid and Hazardous Waste Control Board. The current Executive Secretary is Dennis R. Downs. In the future, other persons will hold the position of Executive Secretary. National City Bank may determine who the current Executive Secretary is by contacting the Division or by viewing our web page at <http://www.hazardouswaste.utah.gov/>

If you have any questions regarding the financial assurance requirements for the U.S. Gypsum facility in Sigurd, Utah, please contact Jeff Emmons at 801-538-6748.

Sincerely,

Dennis R. Downs, Executive Secretary  
Utah Solid and Hazardous Waste Control Board
